

K100 Cabinet Lock

Wireless possibilities for online access control

ASSA ABLOY, the global leader in door opening solutions

Add cabinet security without adding another credential

The HES K100 wireless cabinet lock with Aperio™ technology makes it easy and cost effective to bring real-time access control to cabinets and drawers where audit trail and monitoring are becoming increasingly critical. It uses local wireless communication between the lock and an Aperio hub to connect to an access control system, eliminating the cost and difficulty of bringing integrated access control to the cabinet.

Redefining wireless access control

Aperio Technology

- Minimal field configuration for quick, easy wireless deployments that eliminate the cost and inconvenience of complex wireless site surveys
- Fully-encrypted AES 128 wireless communication between the K100 cabinet lock and Aperio hub; high security standardized communications ensures data security
- Global Aperio technology is ideal for companies who wish to deploy a standard infrastructure across multi-national locations
- Available across a range of locking hardware from ASSA ABLOY Group brands, Aperio provides the flexibility to address a variety of applications throughout your facility.

K100 Features & Benefits

- High security Grade 1 asset protection with audit control
 - Cabinet lock latchbolt status monitoring
 - 250 lb holding force, Grade 1 rating per ANSI A156.11-2003
 - Online & offline transaction audit trail capabilities
- Fast, easy to install wireless lock tied to existing electronic access control system infrastructure
- Low maintenance with 50,000 cycles of operation with a single CR123A battery. Optional battery extension pack available.
 - Low battery signaling and reporting
- Two forms of override available, including mechanical key override and battery jump start pack
- Easy-to-manage user access
- Convenient, quick response, single-card system uses existing ID badges (no keys to control or replace, no codes to secure or remember)
 - Supports HID® 125kHz proximity or 13.56MHz iCLASS® contactless credentials (full authentication, all formats)
- Product options
 - Black or white finish
 - Round or thumbturn knob
