## POWER/DATA SURGE PROTECTOR

**DTK-120SR, DTK-2MHLP**

### DESCRIPTION

The **Model DTK-120SR** is a in-line, four-stage, power-line surge protector with EMI/RFI filtering. It is designed for mounting in an enclosure or control panel. Series installation eliminates the need to dedicate a circuit breaker for surge protection, while allowing for installation flexibility. The **120SR** meets stringent government and military specs for fire panel applications and is suitable for use on an critical 20 Amp loads.

The **Model DTK-2MHLP** series of signal, data and loop circuit surge protectors provide robust protection in a compact package. Designed for ease of installation, with convenient field-replaceable modules. The 2MHLP protects two circuits pairs per module. Applications include protection of 4-20mA current loops, alarm pane NAC, SLC and IDC loops, and burglar alarm panels.
