

GAS & SPECIALTY SENSORS

GAS CALIBRATION AND VERIFICATION KITS

CO/CO₂/NO₂-CKIT SERIES, 3015 SERIES, MODEL UCK

GAS CALIBRATION KITS

The **CO/CO₂/NO₂-CKIT Series Calibration Kits** include a gas cylinder, tubing, regulator, calibration adapter, carrying case, and instructions to properly test and maintain gas detection instrumentation. Models include a 17L, 58L, or 103L filled gas cylinder with the appropriate calibration gas. The calibration kit **CO-CKIT25** is specifically designed for calibrating the CO25 and VA301M Series gas monitors.

NEW!

ORDERING INFORMATION

MODEL	DESCRIPTION
CO-CKIT1	CO Calibration kit, 17L cylinder
CO-CKIT25	CO Calibration kit, 103L cylinder
CO-CKIT3	CO Calibration kit, 103L cylinder
CO ₂ -CKIT1	CO ₂ Calibration kit, 17L cylinder
NO ₂ -CKIT5	NO ₂ Calibration kit, 58L cylinder

8

REFRIGERANT VERIFICATION KITS

Perform operation validation on refrigerant monitoring devices in the field with the **3015 Series Refrigerant Verification Kits**. Each kit includes a 1L filled refrigerant gas cylinder, 5 ft (1.5m) of plastic tubing, variable regulator, and a hard carrying case.

ORDERING INFORMATION

MODEL	DESCRIPTION
3015-3430	R-22 Gas verification kit
3015-3437	R-134a Gas verification kit
3015-3438	R-123 Gas verification kit

UNIVERSAL CALIBRATION KIT

The **Model UCK Universal Calibration Kit** contains essential items to perform gas calibration on a variety of gas monitoring equipment. The kit includes assorted tubing sizes, couplings, adapters, restrictors, a regulator, pressure gage, and a hard carrying case. Gas cylinders are sold separately. The **Model UCK-1** contains a regulator to fit 17L cylinders for non-corrosive gases (N₂, CO₂, CH₄, H₂, O₂, CO, and refrigerants). For corrosive gases (NO₂, H₂S, SO₂, and NH₃), use **Model UCK-2** which contains a regulator for 58L cylinders. **Model UCK-3** contains both 17L and 58L regulators.

ORDERING INFORMATION

MODEL	DESCRIPTION
UCK-1	Universal calibration kit for non-corrosive gases (N ₂ , CO ₂ , CH ₄ , H ₂ , O ₂ , CO, and refrigerants)
UCK-2	Universal calibration kit for corrosive gases (NO ₂ , H ₂ S, SO ₂ , and NH ₃),
UCK-3	Universal calibration kit for non-corrosive or corrosive gases
